I think you are the best mother in the world.  
Look, you help me plant trees and grow flowers.  
Open the window, I can see the trees and the flowers growing up.  
Violet flowers are as beautiful as you.  
Every evening, you help me with my study.  
Mum, you are the light shining in my heart!  
Oh mummy, you are so great!  
Thank you for looking after me.  
Hope you will be happy every day!  
Eaglet is your child.  
Remember she will love you forever!  
To my mother  
Oh, who is your favorite?  
Hand in hand, close your eyes.  
My eyes, your eyes, please.  
You can feel a nice girl, who is she?  
Mother, of course.  
Often, my mother stays with me,  
Telling me how to study, how to live.  
How lovely! She is also my angel!  
Even she stays far away from me,  
Rocket and train carry my love to my mother.

The hummingbird is one of the smallest bird species and is known for its body size. It is almost the same size as a honeybee. They are a kind of bird with long wings and are able to hover in the air. They can fly very fast, from 25 miles per hour up to 60 miles per hour.

Hummingbirds can live for around 5-6 years, and some species may even live up to 9-10 years. They are from central and south America, and there are about 340 different species, many of which are at the risk of extinction. People may not be able to see them in the future. We should do something to protect them before it's too late.

Hummingbirds move between flowers. They help a lot in pollination, which is important for keeping the balance and diversity of ecosystems. They play an important role in nature.
