Question: What do we know from the talk?

12. (女聲) What do you think of the lab meat after you tried it?

(男聲) Not bad. It tasted like real meat. I couldn't even tell them from each other. Only one point: Lab meat is a little drier.

(女聲) You can say that again.

(男聲) And I heard growing lab meat is more friendly to the earth than raising animals.

(女聲) I'm not quite sure. Some reports say lab meat is very expensive and it hurts the environment more than keeping animals.

Question: What does the woman think of lab meat?

13. (男聲) Why don't you wear your red coat?

(女聲) I thought it was hot outside.

(男聲) Well, it's November and the weather is changing. The weather report says it will become cold and rainy tonight.

Question: Which is true?

14. (男聲) Hello, everyone. Keeping safe is the most important thing to do when we are at the beach in summer. What rules do you need to follow? First, before you swim in the water, do some warm-ups. Second, don't swim far from the beach. That will be very dangerous. Third, swim with your friends! Finally, don't go swimming when there are no other people around.

Question: What is the man talking about?

15. (女聲) Wow! The water at Blue Moon Beach is very clean. There are a lot of fish swimming.

(男聲) Last time, I didn't see many fish here, but there are more and more now.

(女聲) That's because people from *Love Care* started to clean the beach two years ago. Look how clean it is now!

(男聲) We really need to take good care of the beach, or we won't have a wonderful place to play water sports.

(女聲) You can say that again.

Question: Which is NOT true?
