A study in the UK shows that up to 53% of cellphone users would feel worried when they lose their cellphones, run out of the power, or have no Internet. It's getting worse in the US, too. More than two-thirds of people sleep next to their cellphones, and more than half the people never turn them off. What's worse, nomophobia rises sharply at schools now. More and more teenagers can't live without cellphones. They spend more time texting than talking to people face to face. But you know, In France, young students can't use cellphones during school hours.

Do you keep checking your cellphone for messages, calls, or e-mails very often? Do you always take your phone to the bathroom? Are you scared of losing power? If you say yes to most of the questions, it's time for you to take a break. Try not to use it for a day and spend more time talking with your friends or family face to face. 'Fashion is not just about dresses; fashion is something in the air. Fashion is in the sky, the street. Fashion is about ideas, the way we live, what is happening.' – Coco Chanel –

When it comes to fashion, it's hard not to think of Coco Chanel. She changed women's styles through her fashionable designs in twentieth century. Gabrielle Bonheur Chanel was born on August 19th, 1883 in France. Her family wasn't very

rich. She and her sisters were sent to the orphanage after their mother passed away. Life in the orphanage wasn't easy, but Coco had a special talent: She learned how to sew. When she turned eighteen, she left the orphanage and started making a living on her own. After working as a shopgirl and even singing in a café for a while, Coco's life changed. In 1913, she borrowed some money from a rich man and opened a small shop in Delville, France. She sold not only beautiful hats but also simple and comfortable sportswear. At that time, most fashionable women wore long dresses that almost touched the ground. This made it difficult for them to drive a car, ride a horse, or even walk quickly. When they went out, they wore large hats with flowers, leaves, and fruits, which made it harder for them to move around. Some women didn't like this style and Coco was just one of them. She made dresses and skirts that were much shorter and reached just below the knee. She also told her customers to wear larger clothes to be more comfortable. Coco believed that luxury must be comfortable, or it is not luxury. People loved her new idea. Soon, important women were lining up for Coco's designs. By the late 1920, Coco Chanel was a fashion hit. Everyone was looking for clothes in her latest styles. Her fashion business covered clothes, hats, bags, accessories and fragrances.

Coco Chanel made a big change in women's clothes and became a successful businesswoman. She was still designing new clothes for the world's top women when she died in 1971. Today, 'Chanel' is one of the most famous names in fashion and no others can take its place.

Let's Go Sightseeing in New York by Subway!

Two Different Choices: MetroCard or OMNY

The MetroCard

The Pay-Per-Ride MetroCard

This physical card takes away money from your card for every ride. You must put enough money into the card before you use it, or you cannot enter the subway.

The Unlimited Ride MetroCard: 7-Day or 30-Day

These physical MetroCards have no limits on their use during the set time. For example, if you buy a 7-day plan (You need to pay \$34 first), you can take the subway as many times as you want for a week. If you buy a 30-day plan first (\$132), you can use the card as often as you like for thirty days.

OMNY: One Metro New York

OMNY is a newer way to pay for subway rides in New York City. Unlike using only a physical card, you can pay with your Apple or Google wallet. All you need to do is touch your smartphone or smartwatch above the OMNY reader machine, and then you can enjoy your ride without any further steps. It's easy, quick and convenient. No more worrying about losing your MetroCard! Pay for 12 rides in a week, and the rest of your rides for the same week will be free. OMNY will take the place of the MetroCard system in one or two years.

In the New York subway, whether you travel one stop or go all the way to the end of the line, the cost is \$2.90.

During a week	Pay-Per-Ride MetroCard	OMNY
the 1 st ride	\$2.90	\$2.90
